

Please do not be swayed by the slick lobbyists for the communication moguls who want to further gobble up the airwaves of America. Our country has always depended upon the press, both print and air, to keep an eye on what is actually going on, not just act like robots to report the pap which is given out on a daily basis. It is essential that a few corporations who are only interested in "the bottom line" do not become the overseers of these guardians. We've already seen what happened when radio was de-regulated, just a couple of companies now control most of what you hear coast to coast. This is NOT healthy.
